Subject: State Center Project

To Whom It May Concern:

I am writing in reference to the State Center Project (Baltimore City).

As a homeowner, as well as Vice President of the Board of Directors for the neighboring community of Heritage Crossing, I implore you and all others involved to please vote IN FAVOR of the development of the State Center. In order to put this extremely important matter to rest, rather than leave it for the next administration, your support is badly needed.

We hope we can count on you!

Sincerely,

Shellie Phillips
